

Please do not overturn the NJ Do Not Call list. The intrusive telemarketer calls must be stopped. The phone would ring incessantly throughout the day and early evening. I pay for the phone to be in my home as a convenience to me and my family. Not to be harassed in my own home by telemarketers. By originally asking to have our name put on the DO NOT CALL list, we have indicated that we do not want these calls to continue. Please respect our desire not to be subjected to these calls. Thank you.
